

Image	Title and Author	Synopsis
	Tough Plants - unkillable plants for every garden by Sharon Amos	(Abe Books) Sharon Amos is an author and freelance journalist specializing in gardening. Her previous books include Celebrations, Garden Wisdom, Pulbrook and Gould Flowers and Plants for Free.
	Hostas & Other Shade-loving Plants by Richard Bird	(Abe Books) Gardening book for shade plants.
	Climbing Gardens by Joan Clifton	(Abe Books) Gardening in the vertical plane can transform the dulllest plot, giving it vital style and structure; this gardening source book shows you how. Featuring planting ideas and practical advice, it explores the potential for all types of planting supports, from simple latticework and tension wiring to pergolas, metal frames and living sculptures. It explains how you can use them to create different garden styles and moods, preserve privacy, increase the feeling of space, focus the eye and add some exuberant colour.
	The All Seasons Gardener by Mark Cullen	Rest of title is "Getting More from your Canadian Garden."
	100 Easy to Grow Native Plants by Lorraine Johnson	(Abe Books) "100 Easy-to-grow Native Plants" is the essential reference guide to native plants for gardeners throughout America.
	1001 Hints and Tips for your Garden by Andrew Jones	(Abe Books) Whether you want to plant a tree, choose a climber, grow fragrant flowers, or learn how to apply the various types of fertilizer, this comprehensive A-to-Z book will help you get the job done. And because topics are cross-referenced, you will find it easy to use. Inside are samplers of varieties of the best-loved plants - flowers, vegetables, trees, and shrubs - and a list of tulips that will take turns blooming all spring long.
	Wetland Plants Ontario by Steven G. Newmaster	(Abe Books) Wetlands--lakes, rivers, marshes, swamps, bogs and fens--are an integral part of the Ontario landscape. They slow and sustain local water flow, and they contribute significantly to the diversity of life and ecosystems by providing habitat for plants, mammals, birds, reptiles, amphibians, fish and countless invertebrates. This handy field guide features detailed plant species descriptions combined with precise drawings and excellent colour photographs. Includes edible plants, native uses of plants, a colour photo guide to flowers, over 450 photographs.
	The Naturalized Garden: More Petals with Less Labour by Stephen Westcott-Gratton	No book description available at this time. Stephen Westcott-Gratton is Canadian Gardening magazine's editor-at-large, author of several books and numerous magazine articles.
